

ENVIRONMENTAL ACTIVITY MANAGEMENT SYSTEM

Member 2: Muhammad Faizan Rabbani

UC-9 Send Alerts

ID	UC-9
Name	Send Alerts
Primary Actors	Admin
Stakeholders and Interests	Admin will send alert to users via system in order to perform activity on time.
Pre-Condition	Activity must be scheduled.
Post-Condition	User receives alert message on portal when he/she logs in.
Main Success Scenario (Basic Flow)	1) Admin: sends alert to user. 2) User: login to their account on portal. 3) System: displays an alert message on screen.
Extension (Alternate Flow)	1) Alert not sent to user; refresh portal and resend alert, check internet connection. 2) User cannot login due to invalid credentials; Enter valid email and password. 3) Alert message not displayed on the screen; refresh portal, check internet connection.
Special Requirements	None
Technology and Data Variable List	Internet and any smart device must be available.
Frequency	Often times a week.
Special Issues	None
